WHAT'S NEW

Effective January 1, 2008, the New Hampshire Legislature passed legislation which bans the disposal of mercury-added products at landfills, transfer stations, or incinerators. This ban applies to business and homeowners alike with no exceptions.

Items which cannot be collected in the solid waste stream include: TV's, electronics, fluorescent light tubes, compact fluorescent bulbs, thermometers, thermostats, electrical switches, mercury button cell batteries, etc.

Homeowners should check with municipal offices at (603)-262-5266 for acceptance of these materials at local solid waste facilities or information on household hazardous waste (HHW) collection days. The first HHW Day will be Saturday, May 8, 2010, from 9 AM to 12 Noon at the New Plaistow Recreation Field at 52 Old County Road, Plaistow. The fall HHW day is to be scheduled

Fluorescent bulbs, batteries and other items can also be managed safely by Waste Management. Simply visit www.thinkgreenfromhome.com or call 800-669-6466 for more information. Electronics collection can be arranged by contacting Waste Management at 800-847-5303.
